

WELCOME TO BISHOPSHILL. RELAXED FAMILY LIVING WITH FASHIONABLE GEORGIAN FLAIR.

Blending traditional design with all the demands of modern family life is quite an achievement. But then, Bishopshill is quite unique in every sense.

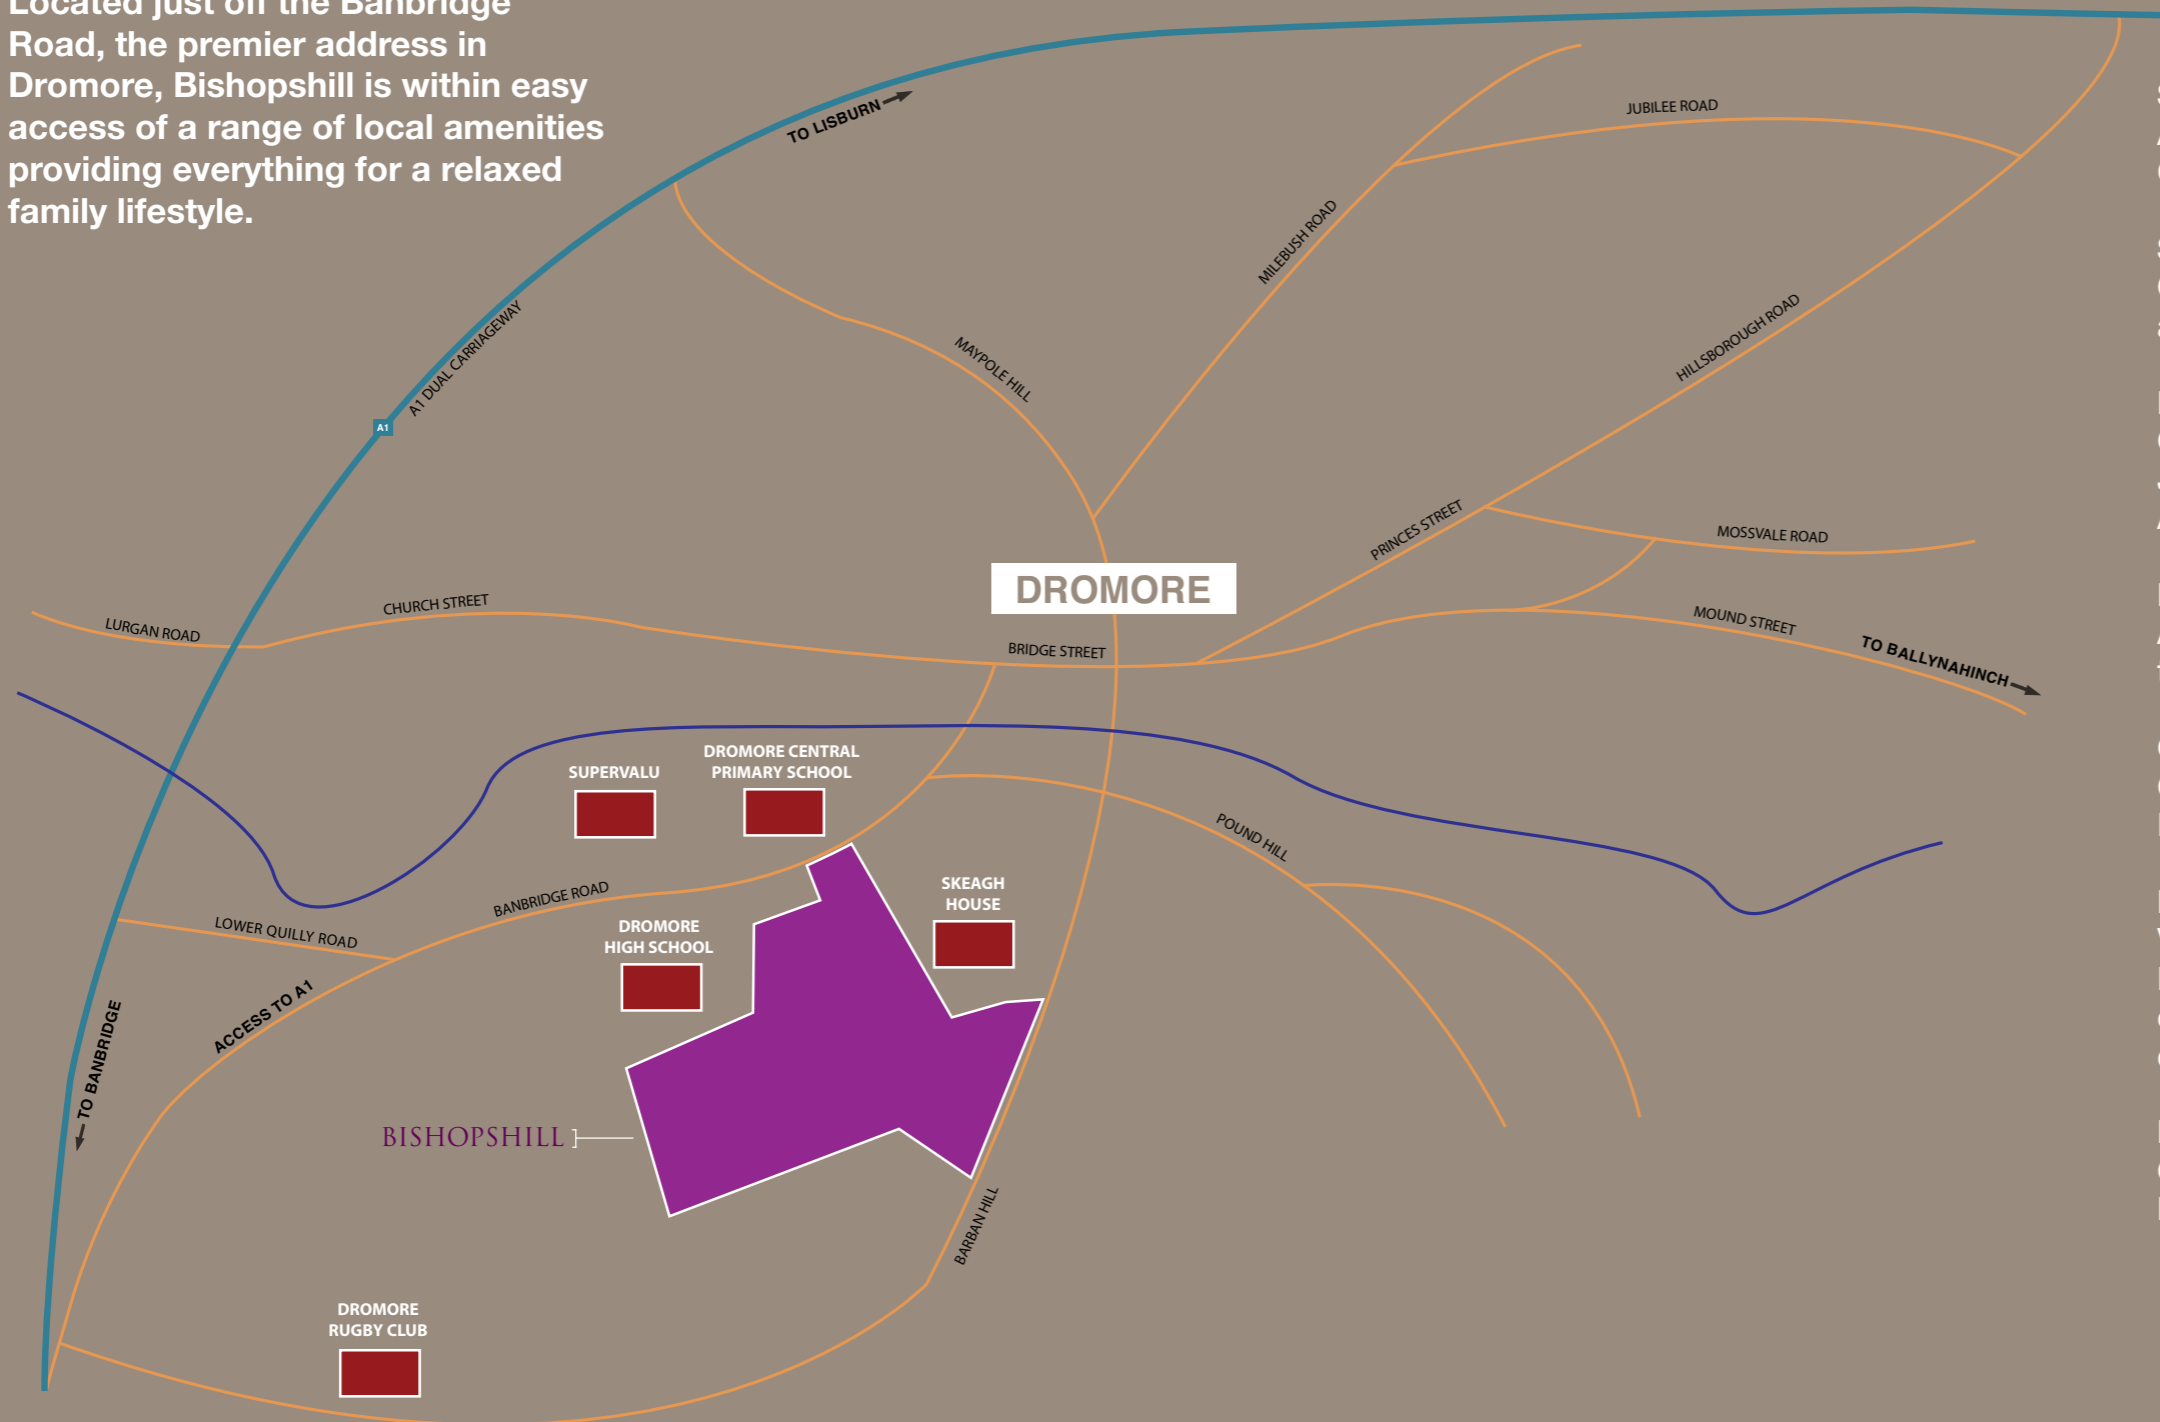

That's why we have designed an exciting range of modern family accommodation, all conveying an unhurried sense of grandeur that reflects both the discerning character of times past as well as the needs associated with a 21st century family environment.

It's this air of 'casual formality' that graces every detail of this prestigious development - in its design, in its craftsmanship and in its ambience. Indeed, Bishopshill reflects the guiding principles of every WJ Law development: to apply the highest possible standards to quality family living. That, quite simply, is the benchmark of everything we do.

“Accommodation that reflects both the discerning character of times past as well as the needs associated with a 21s century family environment.”

A BEAUTIFUL LANDSCAPED SETTING AND AN UNRIVALLED LOCATION IN THE HEART OF DROMORE.

“A premier address and the perfect location in every way.”

WHERE COMPLEX CRAFTSMANSHIP AND MODERN LIVING CONVERGE.

Modern family living places many demands on the design of a home. Yet our designers have created a wide variety of family accommodation choices - choices that marry both convenience and elegance in equal measure.

Boasting many classic Georgian features, each new home in Bishopshill is completed to a reassuringly high specification, exuding a feeling of quiet grandeur, from the stately presence of The Clock Tower to the understated charm of our Chambers Cottage.

The benefit for you is a quality of craftsmanship not often found today. This meticulous adherence to traditional skills is matched by a peerless interior layout where the practicalities of modern living are self evident. The result is a range of homes that offer enticing structural variations - yet all bound together by a real sense of style and place.
